

## Nu Skin Enterprises Provides First-Quarter Update

April 13, 2007

PROVO, Utah, April 13, 2007 /PRNewswire-FirstCall via COMTEX News Network/ -- In advance of meeting with its leading distributors from around the world, Nu Skin Enterprises (NYSE: NUS) today announced that it expects stronger-than-anticipated first-quarter revenue of approximately \$273 million. The company also expects earnings per share to be within its previously announced range.

"We are pleased with the company's first-quarter performance and the overall direction of our business," said President and Chief Executive Officer Truman Hunt. "The first quarter finished strong as we focused on executing the 2007 strategic plan we presented to shareholders last November. This plan includes objectives for growing revenue, improving margins and increasing shareholder value, and is summarized in a document entitled "2007 Strategy Grid" found on our investor website. We are encouraged by continued strong growth in South Korea and Europe and solid performances in the U.S. and most of our other markets. We are particularly pleased with sustained improving trends in Japan and mainland China and renewed growth in Southeast Asia.

"We host our annual sales incentive trip this week and look forward to meeting with top distributors from around the world. Through continued alignment with our sales leaders, I am confident that we will continue to generate growth," Hunt concluded.

The company will announce first-quarter results and more detailed plans for the year on May 3, 2007.

### The Company
